Long Island Love Stories from Beyond

With the Paranormal Adventurers

This multimedia program centers around heartwarming true stories told by Long Islanders whose real life experiences taught them that the love of passed family members and friends never dies... that love transcends even death.

How do our deceased loved ones contact us to let us know they are alright and where they have gone to? Are coincidences and unlikely events actually messages from "the other side" intended to let us know that the loved-ones we miss so much are actually still around us?

Joseph Flammer & Diane Hill, The Paranormal Adventurers, are Long Island's most famous ghost hunters, authors and lecturers of the paranormal.
