

## YOUR SONY® READER & YOU

There is a large selection of free eBooks available to you through the library. Find out how to get them on your device by following the instructions below:

### **Step 1:**

Visit the library's website - [www.islandparklibrary.org](http://www.islandparklibrary.org) and click on the **Download audio and eBooks powered by Overdrive** icon on our homepage. The Nassau Digital Doorway website will pop up. From here, click on "Quick Start Guide" on the top right side of the page. This will guide you through the process of downloading Adobe Digital Editions. **\*\* You will be unable to use an eBook without first installing this console.**

### **Step 2:**

From the Nassau Digital Doorway website you will be able to browse through the eBook collection. When you find a title you would like, click 'add to cart'. When you are ready to check out, click on 'proceed to checkout'. Also, if there is an eBook that you would like but it is currently checked out, you may click 'place request' to get an email when the book is available for you to download.

### **Step 3:**

You must sign into the system by selecting Island Park Library and keying in your library barcode (found on the back of the card, without the spaces).

### **Step 4:**

When you are finished browsing, you must confirm your order by clicking 'confirm check out'. You are now ready to download.

### **Step 5:**

Connect your Reader to your computer.

### **Step 6:**

Click download underneath the book cover. Click 'open' when prompted (if a message pops up saying "a website want to open web content using this program on your computer", click allow).

### **Step 7:**

Your Reader Library should open and in a few moments you should see the title of the book you have chosen. Right click on the book and click 'copy'.

### **Step 8:**

Click on Reader Icon on the left hand side and right click 'paste' (if your Sony Reader is not connected to your computer no icon will appear, connect your Reader to complete this step).

### **Step 9:**

You will now see the icon on the book you have selected on your Sony Reader. You can disconnect the device and enjoy your eBook. After the loan period expires (14 days) your eBook will be checked in automatically and no longer accessible on your reader.

Use 'Checkout Assistance' for any additional questions that you may have or ask a librarian on you next visit to the library.

**Please note:** eBooks are available in two different formats, EPUB and PDF. EPUB is the desirable format for eBooks since it allows you, once transferred to your device, to change the size and text of the book.
