

How to create a Yahoo! E-mail account

- Go to www.yahoo.com
- Click on "Mail" (right side of screen about 1/3 of the way down)
- Click on "sign up" (right side of screen towards bottom)
- Fill in the information under #1 Tell us about yourself
 - Name
 - Gender
 - Birthday
 - Country
 - Zip code
- Fill in the information under #2 Select an ID and Password
 - Enter a username in the space next to Yahoo! ID and E-mail.
 - Click on the "Check" button
 - Did it accept your username? If so, fill in the username below
 - If not, try a new username
 - Choose a password and type it in where indicated
- Fill in the information under #3 In case you forget your User ID or Password
 - Type in an alternate e-mail address (if you have one. If not, you can leave this blank)
 - Click on the down arrow to select a security question that Yahoo will use to verify your identity if you forget your password
 - Type in the answer in the next field
- Below these questions will be a series of letters and/or numbers for you to retype
- Click on the checkbox to agree to Yahoo's Terms of Service and Privacy Policy
- Click on Create My Account

Congratulations! You have created a Yahoo! E-mail account.

Your email address is _____@yahoo.com
(fill in username here)

Your password is _____
